

# Techniques

**baby lock**

## *Twin Needle Rolled Hem*

- This is a lovely edging stitch very easily achieved on a Baby Lock no tension overlocker.
- For best results use a decorative thread such as Designer Threads Cameo or Pearl in the upper looper.
- Polyester threads can be used in the lower looper and both needles.
- Stitch Selector can be set on B or C - See picture.

- Stitch Length can be set on 1.5 - 2 on Rolled Hem (depending on the thread being used)
- Stitch width set at 7.5 gives a lovely wide edge.
- Designer Threads Cameo was used in this sample.
- Wave/Overlock Selector set to Overlock
- Differential Feed set to N
