Food Throw

Requirements

Baby Lock Overlocker

Flat Sole Foot

2 x Machine Needles to suit your Baby Lock Model

Print 1: 50cm x 110cm Cotton Fabric

Print 2: 50cm x 110cm Cotton Fabric

Note: Cut the printed fabrics into 4 1/2" (11.5cm) strips from the width of Fabric

80cm x 80cm square of Curtain Net Fabric

Beads for Corner Tassels (5 beads for each 4 corners)

Curtain Weights for each corner (optional)

Sewing Machine required to sew weights in each corner

DESIGNER THREADS BY BABY LOCK

4 x Maxi Lock Overlocker Thread White (32001)

1 x Designer Thread—Cameo (colour 1)

1 x Designer Thread—Cameo (colour 2)

Creative Method

Construction :

Set machine up for 4 Thread Overlocking using the Maxi Lock (Poppy Red) in the needles and loopers.

Stitch Selector: A
Stitch length: 2.5
Stitch Width: 6.5
Needle: Left & Right
Differential Feed: N

Attach the Flat Sole Foot

Place print 1, fabric strip and print 2 fabric strip rights sides together with the net sandwiched in between one side of the square. Overlock the raw edges together, fold the fabric out so the wrong sides are together and encasing the seam just sewn.

Repeat this process for the opposite side of the net square. Press both border pieces and trim fabric strips to match the size of the net.

Repeat for the other two sides of the Food Throw, fold out the edges so the right sides are showing, press and trim the borders if required so the Food Throw is square.

Twin Needle Rolled Hem :

Set machine up for 4 Thread Twin Needle Rolled Hem using Cameo Thread in the upper looper, Cameo Thread in the lower looper and Maxi Lock Overlocking Thread White (32001) In the needles.

Stitch Selector: B
Stitch Length: 2.0 R
Stitch Width: 7.5
Needle: Left & Right
Differential Feed: N

Starting at one corner roll hem each side individually, if it is difficult to start over an existing rolled hem, make sure your needles are in the highest position and place the corner under the needles and hold onto the excess rolled hem from the previous stitching. Now thread 5 beads onto each corner.

Note: After each roll hem, run the chain on for approximately 35cm, and trim 5cm from the finished roll hem, this will create a chain for each corner of the Food Throw to thread beads on for a decorative finish and to weight the Food Throw.

WOW! That was easy. Now plan your next BBQ

Thank you and we hope you have enjoyed making this project.
